I. Introduction

Dear Author, Your paper has been accepted for publication in IJST. Please follow the steps outlined below when submitting your final draft to the IJST. These guidelines include complete descriptions of the fonts, spacing, and related information for producing your manuscripts. Please follow them and if you have any questions, direct them to the editor of journal at: **editor@ijst.co.in**

II. Formatting your paper

The text of the paper should be written in two column format in a .doc file. All printed material, including text, illustrations, and charts, must be kept within the following margins (with Portrait Orientation). Put all tables and figures at last and refer them in the text accordingly.

Top 0.7" Bottom 0.7"
Left 0.7" Right 0.7"

III. Main title

The main title (on the first page) should begin 1 inch from the top edge of the page, centered, and in Times New Roman 16-point, boldface type. Capitalize the first letter of nouns, pronouns, verbs, adjectives, and adverbs; do not capitalize articles, coordinate conjunctions, or prepositions (unless the title begins with such a word). Please initially capitalize only the first word in other

titles, including section titles and first, second, and third-order headings (for example, “Titles and headings” — as in these guidelines). Leave one blank line after the title.

IV. Author name(s) and affiliation(s)

Author names and affiliations are to be centered beneath the title and printed in Times New Roman 12-point, non-boldface type. Multiple authors may be shown in a two or three-column format, with their affiliations below their respective names. Affiliations are centered below each author name, italicized, not bold. Include e-mail addresses if possible. Follow the author information by two blank lines before main text.

V. Type-style and fonts

Wherever Times New Roman is specified, Times Roman, or Times may be used. If neither is available on your word processor, please use the font closest in appearance to Times New Roman that you have access to.

VI. Main text

Type your main text in 12-point Times New Roman, single-spaced with single-line interline spacing. Do not use double-spacing. All paragraphs should be inline with the Headings and are not to be indented. Be sure your text is fully justified—that is, flush left and flush right.

You can insert additional blank lines between paragraphs.

Figure and table captions should be 12-point Times-New Roman, Initially capitalize only the first word of each figure caption and table title. Figures and tables must be numbered separately. For example: “Figure 1: Co-ordinated Multi-Point Access”, “Table 1: LTE-Advanced Requirements”. Figure captions are to be below the figures and Table titles are to be above the tables (Left aligned).

VII. First-order headings

For example, “1. Introduction”, should be Times New Roman 14-point boldface, initially capitalized, flush left, with one blank line before, and one blank line after. Use a period (“.”) after the heading number, not a colon.

A. Second-order headings

As in this heading, these headings should be Times New Roman 12-point boldface, initially capitalized, flush left, with one blank line before, and one after.

B. Third-order headings: Third-order headings, as in this paragraph, are discouraged. However, if you must use them, use 12-point Times New Roman, boldface, initially capitalized, flush left, preceded by one blank line, followed by a colon and your text on the same line.

VIII. References

List and number all bibliographical references in 12-point Times New Roman, single-spaced with single-line interlining spacing, at the end of your paper. When referenced in the text, enclose the citation number in square brackets, for example [1]. Where appropriate, include the name(s) of editors of referenced books. Unpublished articles or private communications should not be given in the reference list. Examples are given below for illustrations:
